

Cybersecurity Scorecard™

KEY INSIGHT:

For any SMB, **DATA** ranks among its **MOST VALUABLE ASSETS**.

That's why Tech Heads puts
DATA AT THE CENTER of our cybersecurity practice.

4 DATA-PROTECTION DOMAINS:

CONSIDER THESE FACTS:

\$690k is the average cost of a security breach to an SMB.¹

60% of SMBs close within 6 months after a cyber attack.²

1. Ponemon Institute 2018

2. U.S. National Cyber Security Alliance

SYSTEMS Are your systems fully patched?
Is every component up to date?

PEOPLE Will your team recognize threats?
Will they know how to respond?

PERIMETER Do you monitor threats?
Do you have a response system in place?

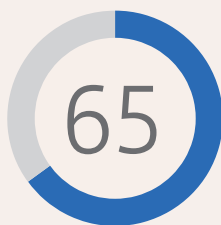

POLICIES Have you documented critical cybersecurity practices?

If you lack certainty about the security of your data it's time to **TAKE ACTION.**

CERTAINTY BEGINS HERE:

GET YOUR CYBERSECURITY SCORECARD™

Based on our proprietary 100+ point survey, your Scorecard will feature ratings for each of the 4 data-protection domains:

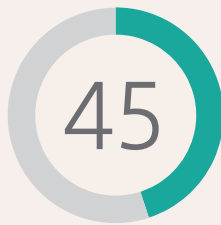

SYSTEMS

PEOPLE

THREATS

POLICIES

ALSO INCLUDED:

CIS CONTROLS

Details on your rank against the industry-standard CIS 18 Framework.

NEXT STEPS

In addition to a score a detailed report of recommendations will be made to guide next steps in improvement.

BENCHMARKS

Your Cybersecurity Scorecard™ can be used to measure improvements over time.

START YOUR SECURITY JOURNEY.

Schedule a 60-minute meeting to complete our proprietary 100+ point survey.
