THInc. Bootcamp™

TECH HEADS

Managed Cybersecurity Training to secure your PEOPLE

KEY INSIGHT:

Your people are either your greatest **VULNERABILITY** or your greatest **DEFENSE.**

That's why Tech Heads offers THInc. Bootcamp™ to transform your people into a

HUMAN FIREWALL.

We train your people to become your best line of defense.

CONSIDER THESE FACTS:

91% of successful data breaches start with a spear phishing attack[1]

According to the FBI, CEO Fraud, sometimes called Business Email Fraud, is now a multi-billion dollar scam.

34% of businesses hit with malware take a week or more to regain access to their data[2]

1. Trend Micro 2. Kaspersky

THInc. Bootcamp™ provides customers with web-based, on-demand, engaging training that addresses the needs of any size organization.

MICRO LEARING Three-minute training modules ensure employees recognize spam, phishing, spear phishing, malware, ransomware and social engineering, and are able to apply this knowledge in their day-to-day jobs.

KEY METRICS Metrics let you review the overall status of your Security Awareness Program, recognize trends in engagement over time, and identify users with low scores who may benefit from additional training.
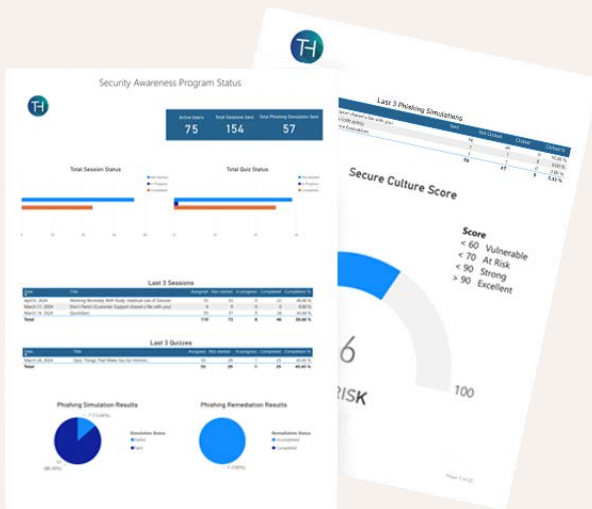

SECURE YOUR PEOPLE.
AUTOMATED TRAINING PLUS PERSONAL SUPPORT.

Your employees are frequently exposed to sophisticated phishing and ransomware attacks. It's important to provide continual content, quizzing and coaching to create a total security culture.

Tech Heads partners with Arctic Wolf to offer a fully managed, ongoing security awareness program that utilizes microcontent, quizzes, and phishing simulations to give you confidence that your team is equipped to defend themselves and your organization from social engineering threats.

Together we walk with your from Onboarding, Program Rollout, Coaching and Analysis of Key Metrics to craft a training program that adapts to your organization's needs and gets results.

Metrics let you review the overall status of the program, trends in engagement, and quiz scores.

1 ENGAGE
Train and prepare employees to stop social engineering attacks.

2 MEASURE
Track employee progress and determine urgent threat topics.

3 TRANSFORM
Achieve a culture of security and turn your people into 24x7 security champions.
